

## CANDY 4 HD II

**CANDY at Home**

**CANDY for Work**

**CANDY for Near-Distance View**

### **4.3" LCD Handheld Video Magnifier with Close-up and Near-Distance Magnification, Three-position Handle and User-Replaceable Rechargeable Battery**

CANDY 4 HD II is a lightweight handheld video magnifier with a sharp high-contrast image that you can conveniently carry with you in your jacket or purse wherever you go. Continuous zoom magnification from 2x - 20x, easy-to-find controls and user-customizable text and background color combinations make CANDY 4 HD II the perfect companion for students, seniors and others with low vision.

### **Crystal-clear, Color-rich HD-quality Image**

CANDY 4 HD II features a 4.3" LCD screen with a high-definition camera ensuring a clear, high-quality image. Its realistic color image is noticeably the best in class among portable models. True color is important for many school and professional tasks like viewing maps, graphs and charts, as well as personal uses like viewing family photographs or browsing catalogs.

### **Handheld and Stand Magnifier In One Handy Device**

Use CANDY 4 HD II as a stand magnifier with the handle flipped under for sorting mail, reading a newspaper or magazine article or other flat materials. The included reading stand adds another level of usability by giving you a greater field of view. Extend the handle to use CANDY 4 HD II as a handheld magnifier for reading a restaurant menu, directions on a pill bottle, cooking instructions on food packaging, notices on a bulletin board, shelf labels at the store and more.

### **Unique and Advanced Features**

Freeze frame and image saving can aid in a variety of situations such as finding a book location in the library, capturing the serial number before calling a tech support line, or capturing a phone number from a business card before you dial the phone. CANDY 4 HD II offers unique near distance magnification as well, so you can view items on a shelf in a store, a sign in a building or above a doorway, a map or poster on a wall, or available selections in a vending machine.

### Convenient take-along magnifier with user-friendly features and options

- Crystal-clear, color-rich HD-quality image
- Continuous auto-focus zoom magnification
- Unique close-up and near-distance view
- User-customizable color contrast settings
- Capture and save up to 5 images
- Handle accommodates left or right handed users
- Reading stand included for those who prefer a smaller magnification
- Innovative near-distance magnification viewing
