Top-quality HD Video Magnification, Vivid Text and Background Color Modes, Easy Operation

If you or someone you know has macular degeneration, glaucoma, diabetic retinopathy, inoperable cataracts, or any other low vision condition that is limiting daily living activities, the LifeStyle HD desktop video magnifier can help retain or regain independence and quality of life. Read and write more comfortably, zoom-in or zoom-out to view photos and pictures, and perform hobbies and crafts.

More than 150 Magnification Levels

Easily zoom the magnification from 3.1x - 95x by the press of a button. LifeStyle HD is the only desktop video magnifier that features more than 150 magnification levels. The magnification increases in 1/10 magnification increments from 3.1x - 10x (for example: 3.1x, 3.2x, 3.3x etc.) and in 1x increments from 11x - 95x. You will have complete control of how much you magnify and how wide of a view is displayed.

Optimized HD Picture and Screen Viewing Options

LifeStyle HD optimizes the high-definition image quality to produce a crisp, clear display. LifeStyle has a well-respected reputation for producing a sharp, high-contrast text reading resolution as well as an excellent natural full color display.

Your choice of a 22" or 24" wide-screen LCD screen size is available. Both monitors adjust higher or lower, tilt forward or back, and swivel left or right for optimum viewing height and angle comfort.

Easy to Use and Packed with Features

LifeStyle HD features a simple front panel design with large, ergonomic push buttons. To increase or decrease the magnification, simply press the up or down arrow buttons. To select or change the image mode, press the large left or right arrow buttons to view the display in full color, enhanced B/W, reverse image (white letters on a black background), or the most commonly used monochrome images like yellow text on a black background, yellow text on a blue background or green text on a black background. Slide the brightness control to enhance or dim the image to suit your visual comfort.

LifeStyle HD at Home

You'll love what you can see again! Imagine all you can do with LifeStyle HD
